

# DECK DRAIN SYSTEM

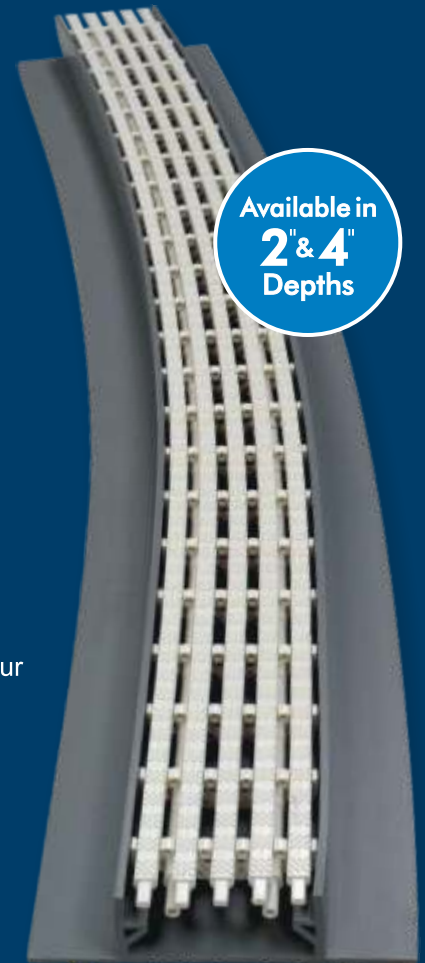

The **Daldorado Deck Drain System** takes deck drains to the next level with robust features not found with any other drain systems. With a 40% open area, Daldorado Drain Packages meet or exceed IBC Standards for finger/toe entrapment guidelines with a gap opening of only 8mm, slip resistant and superior strength to withstand light vehicle traffic.

Each package comes complete in 10' lengths and 4" widths, and include a heavy-duty base with a throw-away cap to keep its form when setting and pouring concrete.

This system has everything you need to do the job right.

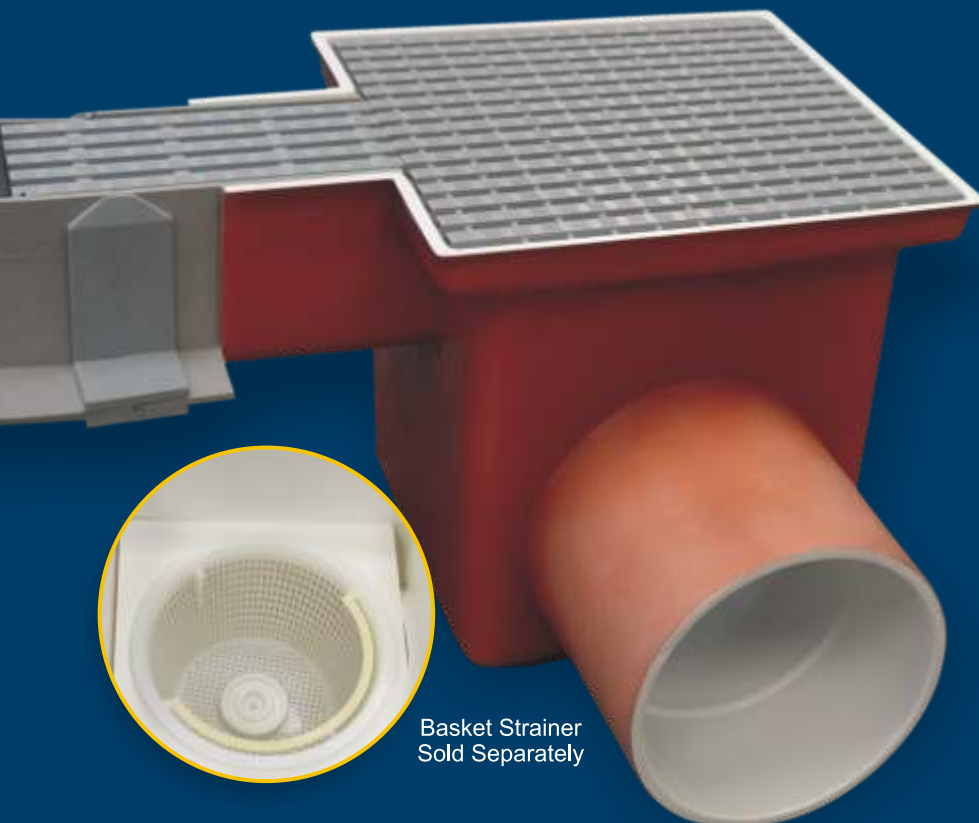

- Certified to IBC Classification C for Wet-Barefoot Inclining Platform (Ramp) test
- All grating constructed of high-grade UV-stable PVC (Axiall 7140 - Certified for NSF50)
- Strength tested for light vehicle traffic (Certified Load Classification under IBC Standard AS 3996 Class A –over 10kN for grates)
- Straight or custom radii down to 6' inside (2 meters)
- Pre-drilled base for ease of leveling & securing before pour
